Dear Friends,

It is our pleasure to invite you to the forthcoming ESID meeting to be held from 21 – 24 September, 2016, in Barcelona, Spain. This will be the 17th ESID meeting, which from a gathering of a small number of enthusiasts, has grown to become the foremost international meeting in the field of primary immunodeficiency.

ESID 2016 in Barcelona promises to bring together the very best perspectives on both basic and clinical research as well as offering a stunning education programme with world renowned teachers bringing presentations, which will be just right for you; a newcomer to the field or a longstanding worker.

The critical mass which ESID has achieved means the scientific programme will draw together all the outstanding international experts to lucidly present and discuss all the significant and exciting developments in diagnostic immunology, genetics and immunobiology of human diseases, opening up the fascinating new understanding in immune dysregulation and inflammation as well as immunodeficiency.

These topics together with advances in clinical practice, novel therapeutic approaches to tolerance induction and new insights into stem-cell and cellular therapies will be covered in depth through keynote lectures, symposia, educational workshops and meet-the-professor sessions.

We very much look forward to welcoming you to the beautiful, enchanting city of Barcelona for a meeting that promises to be even more exciting than the hugely successful meeting in Prague in 2014. If you share our fascination for our rapidly moving field, then this is a meeting you simply cannot afford to miss, as you will find no better opportunity.

With very best wishes,

Kenes offers two types of webcasting options*:

- Video includes a video screen of the speaker/presenter during the session, PowerPoint slides (in sync with the speaker), and audio
- Digital Imaging includes PowerPoint slides with audio Support will be recognized on the home screen with “Supported by...” and a company logo only, acknowledged in the Industry Support and Exhibition section of the programme and on signage during the event.
